Why Choose Radya Labs

Choosing **digital transformation partner, application development or IT partner** are quite complex things.

**Have you been in a
situation like this?**

Reaching out to your vendor/partner is hard, or even worse, uncontactable?

You feel like chasing a ghost? Or need to up your blood pressure to get a progress report?

Maybe you find it difficult to make a changes into your product?

It's too rigid, everything is a change request, you can't negotiate anything!

Why Radya Labs?

In Radya Labs, weekly/ biweekly meeting is a standard that we do. You don't have to be busy looking for us, because we will meet you in a predictable time.

Change is something that always appear in IT projects. At Radya Labs, change in a particular scale are not the things that we can't handle. If your digital transformation process is so unpredictable, we can arrange managed services for you. You don't have to worry about the changes! It's all managed.

How We Work in Radya Labs

Digital Transformation Partner that give **Innovative Solution & Excellent service** to support **Your Business**

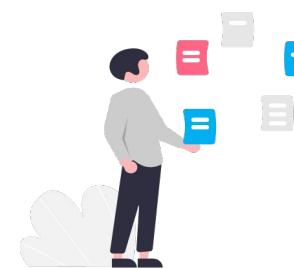

Talk to Our Account Team

The image shows a composite view of the eZRx platform. On the left, a mobile phone displays the eZRx app's user interface, featuring a search bar, a 'Buat Pesanan' button, and sections for 'Surat Pesanan', 'Informasi', 'Rekanan', and a shopping cart summary showing 'Total Pesanan sebesar Rp 852.00'. On the right, a desktop browser shows the 'APL CUSTOMER PORTAL' page, which includes a header with the eZRx logo and navigation links (HOME, TENTANG, FITUR, REKANAN, MASUK), a main banner with a delivery truck and network graphic, and a detailed description of the portal's features: 'APL CUSTOMER PORTAL' (described as an online ordering system for customers to easily view product catalogs, check availability, place orders, track shipping status, and view purchase reports and invoices), 'FITUR APL CUSTOMER PORTAL' (listing 'Pemesanan Swalayan' (self-service ordering), 'Visibilitas Stock' (stock visibility), 'Laporan Pembelian' (purchase report), and 'Pengecekan Pesanan' (order tracking)), and a sidebar with 'APL CUSTOMER PORTAL' and a scroll indicator.

eZRx

E-commerce | Web & Mobile Application | Business to Business

An application from Anugrah Pharmindo Lestari (APL), one of the biggest healthcare company in Indonesia, aiming to make its customer (e.g. hospital, apothecary) convenience to order healthcare related product directly from APL through mobile and web application

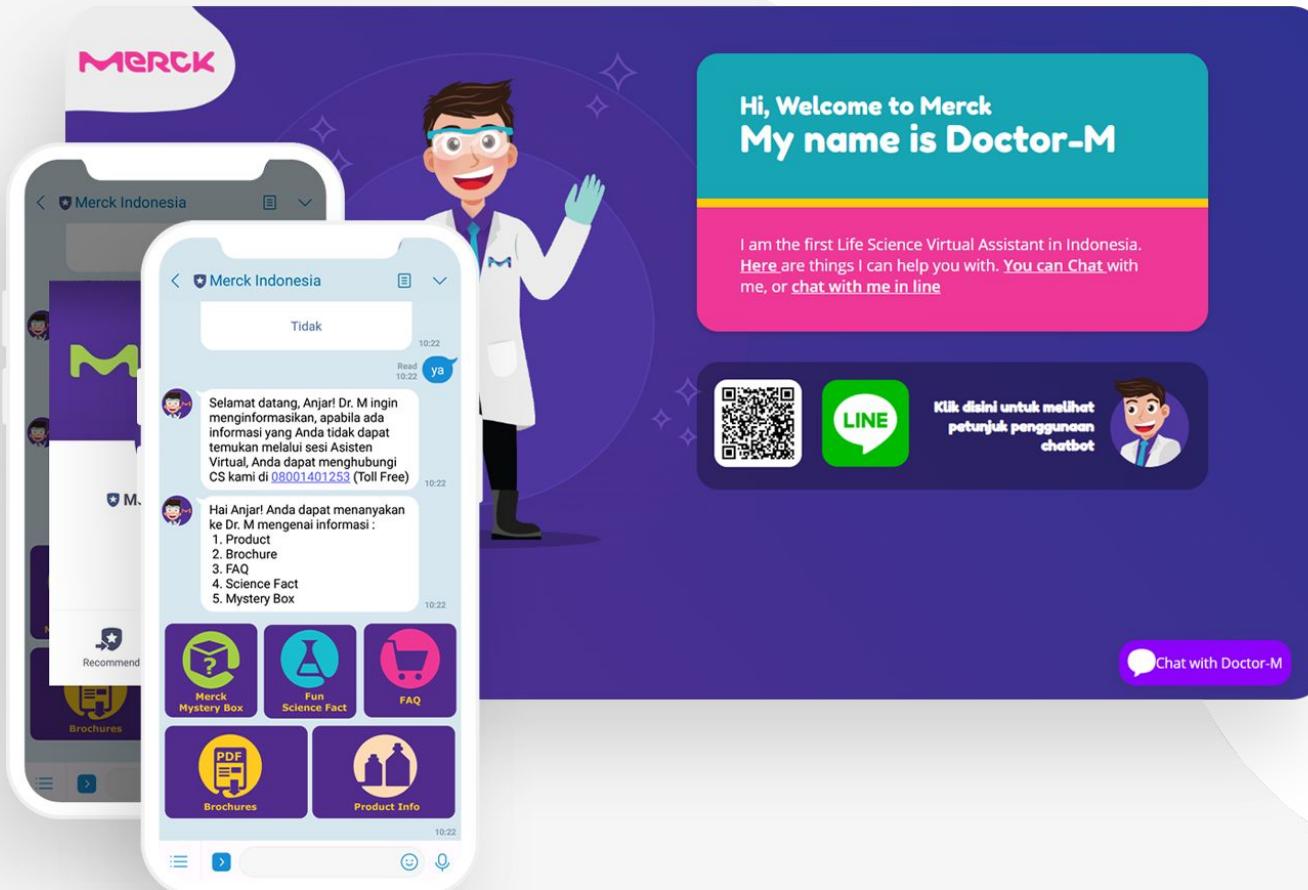

The screenshot displays the BioAudit application interface. On the left, a vertical navigation menu lists categories such as Dashboard, Perencanaan, Penugasan, Pemeriksaan, Pelaporan, Tindak Lanjut, Entitas Audit, Kelompok Pengguna, Program Audit, Auditee, and Auditor. The main area features a dashboard with four progress bars: AUDITEE TAHAP PENUGASAN (7, 70%), AUDITEE TAHAP PEMERIKSAAN (3, 85%), AUDITEE TAHAP LELAPORAN (8, 45%), and AUDITEE SELESAI (1, 57%). Below these are two charts: a line chart titled 'Flot Chart' showing data from 2011-03 to 2012-02, and a pie chart titled 'Auditee By Status' with segments: Menunggu (32%), Revisi (18%), Tugas (36%), and Selesai (14%). A central modal window shows a task list with 16 pending items and a notification for 4 new notifications. The login screen features the bioAudit logo, a welcome message, and fields for Username and Password, along with a LOGIN button, Remember me checkbox, and Forgot Password? link. At the bottom, a line chart titled 'Tindak Lanjut' tracks findings over time, with a callout for January showing 5 findings completed and 10 pending.

BioAudit

Internal Audit | Process Approval

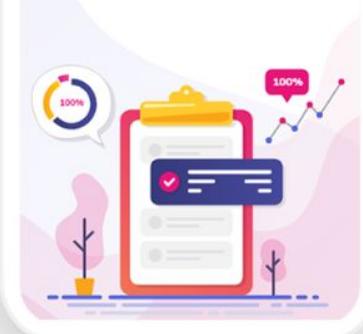

BioAudit for Biofarma is an internal Auditing system. The one stop application from planning, supervising, and executing audit.

Merck doctor-m Chatbot
